

A person wearing a grey t-shirt and dark trousers is operating a red and grey Cleanfix floor buffer. The machine has a large red body with the Cleanfix logo and a bull head emblem. It features a long handle, a flexible hose, and a base with wheels and a red brush. A bright light is visible at the base of the machine. The background shows a kitchen with stainless steel cabinets and a tiled wall.

S10 Light

S10 Recycling

Strong suction power characterizes these extremely handy and compact devices. The small, quiet and robust power packs on 5 rollers are maneuverable and particularly user-friendly and can be stowed anywhere without any problems. Instead of technical refinements, the user benefits from proven robust quality and strong performance. Extensive accessories allow full cleaning even in corners and angles. All parts of the device are recyclable. The S10 Recycling is made with up to 70% recycled material.

- Spare parts and service warranty for all S10 models

S10 Plus SL

Whether dry dirt or wet debris – with the S10 Plus dry vacuum cleaners from Cleanfix you are always well equipped. They are efficient, easy to handle and versatile. This means that they can reliably handle even the most demanding cleaning tasks. The models are equipped with a multifunction handle, a cable holder and two positions for the suction tube holder. The S10 Plus SL has two movable and two fixed rubberized wheels.

- 5 castors for stability and maneuverability
- Cable strain relief and multifunction handle with 2 positions for the suction pipe holder
- S10 Plus Hepa with HEPA filtration

- Slide guide with 2 movable and 2 fixed castors
- Cable strain relief and multifunction handle with 2 positions for the suction pipe holder

UPRIGHT VACUUM CLEANER

Art.:
365.000

BS360 Eco

High-performing and handy vacuum and floor brushing machines with two motors. The roller brush with four height settings makes the cleaner suitable for all kinds of carpets. Stubbornly adhering dirt particles such as threads or hairs are loosened from the fibers and vacuumed up, and the carpet is brushed up again.

Scope of delivery without
batteries

RS05 Silent

The ergonomically adapted support frame of this lightweight dry vacuum cleaner ensures fatigue-free working even after hours. The practical backpack design favors the radius of action and guarantees efficient cleaning of textile floor coverings and hard surfaces such as parquet, linoleum and stone. A further operating convenience is the suction power control integrated in the handle.

RS05 CAS

The ergonomic backpack vacuum cleaner with the cross-manufacturer rechargeable battery system from CAS (Cordless Alliance System), ensures unlimited and safe work without cables. The control unit on the carrying strap allows easy switching from standard to the quieter, but still efficient, ECO mode with up to 60 minutes runtime (depending on battery size).

S10 Plus CAS / S10 Plus CAS HEPA

S10 Plus SL CAS

The professional S10Plus models with the cross-manufacturer rechargeable battery system from CAS (Cordless Alliance System), ensures unlimited and safe work without cables. They are ideal for hard-to-reach places and a loyal companion for on the go. CAS batteries also fit into devices from other manufacturers, which means more flexibility and sustainability as well as lower costs.

- CAS battery system: Cross-manufacturer battery system for unlimited, cordless operation
- Light and agile: Compact design with five wheels for maximum flexibility
- Energy-saving Eco mode: Strong performance with reduced energy consumption
- Robust and durable: High product quality for long-term use
- HEPA filter: Improves air quality by filtering fine dust and allergens

DRY VACUUM ROBOT WITH DOCKING STATION

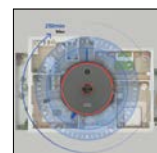

Art.:
017.010

S170-2 SIM

The S170-2 SIM dry vacuum robot is specially designed for professional use and independently cleans hard floors and short-pile carpets up to 300 m² using a systematic algorithm. It intelligently adapts to changes in its environment and continues cleaning in the same place after charging or emptying. The docking station charges the battery, empties the dust tank automatically, and minimizes maintenance. A roller brush with rubber lamellas removes deep-seated dirt, while a HEPA filter reduces dust pollution. The robot works around the clock according to a schedule or on demand and can be controlled centrally via FieldBots fleet management. The optional front bumper extension prevents the robot from running over obstacles, significantly reducing the risk of it getting stuck.

- Wi-Fi connection now also available via 5 GHz
- Integrated SIM card for operation without Wi-Fi
- Suction motor reinforced to 4000 Pa
- Base plate for optimized docking
- Integrated cable management on the docking station
- UVC light for additional hygiene

For areas up to 300m²
and with up to 250
min. battery life.

Technical data	S170-2 SIM	Technical data	S170-2 SIM

444.000

Toro CAS

The agile and extremely robust Cleanfix Toro CAS compact cleaning machine is suitable for maintenance and intermediate cleaning. It is your reliable partner on smooth floor surfaces as well as on challenging surfaces such as kitchen tiles with water displacement joints. Thanks to the optional additional weight, it can also handle intensive cleaning. Be inspired by the immaculate cleanliness - at the touch of a button!

- Specially developed for professional cleaning requirements where hygiene and cleanliness have top priority
- Ideal for bakeries and businesses in the processing industry, for example, as well as for any maintenance cleaning on different floors
- Toro CAS combines state-of-the-art technology with a robust design
- The lightweight and manoeuvrable design reduces physical strain and makes even long cleaning jobs comfortable
- Optimized water and detergent consumption reduces operating costs and environmental impact

Technical data	Toro CAS

RA435 IBC

RA470 IBC

The compact and intelligent machine design is aimed at the daily cleaning of retail stores, hotels, offices and workshops. The self-explanatory and ergonomic operation of the RA 435 IBC can be integrated and used in the cleaning team in a versatile and efficient way. Due to the effective curved suction nozzle as well as the simple water regulation you will achieve a perfect cleaning result on all hard floors. You can also adjust the suction power by 3 positions according to your needs. The 750 W powerful brush motor and the ergonomic, easy adjustable handle are further plus points. With the intelligent accessories such as the hook for the brush and the transport wheel for easy transfer and parking of the machine, you have everything you need.

RA501 IBC

Very tough scrubbing machine for middle-sized floor space in business and industry. Optimum cleaning results with high brush pressure. With big wheels the machine runs vibration-free and copes well with obstacles. The machine pulls itself forward by using the brush rotation.

Technical data	RA501 IBC
Power supply	24 V DC
Power brush motor	1000 W
Power suction motor	400 W
Vacuum	130 mbar
Capacity fresh water tank	32 l
Capacity dirty water tank	38 l
Working width	51 cm
Productivity rate theoretical	2100 m ² /h
Brush pressure	54 kg
Brush revolutions	135 1/min
Weight (without battery)	65 kg
Weight (with battery)	122 kg
Measurements l / w / h	85 / 51 / 80 cm

RA505 IBC

Shapely, robust scrubber dryer, ideal for hard and flexible floors for industries, retail and public environments. Traction occurs via brush rotation, means the machine pushes forward independently. All operational controls are very user friendly – a brush change is carried out in seconds. Ideal for middle sized surfaces.

- Easy handling suction nozzle
- Integrated battery charger
- Close turning radius
- Traction via brush rotation, means the machine pushes forward self-dependent
- Silent working

RA505 IBCT

Shapely, robust scrubber dryer, ideal for hard and flexible floors for industries, retail and public institutions. Forward / backwards working possible. The RA505 IBCT has a automatic traction, as well as environmentally friendly chemical dosing with the Cleanfix-Dosing-System (optional), ensures a high user friendliness. Ideal for middle sizes surfaces.

- Easy handling suction nozzle
- Easy understandable display
- High cleaning power
- Integrated battery charger
- Forward and backwards traction
- Automatic water dosing, depends on speed
- Chemical saving with Cleanfix dosing system (optional)

RA705 IBC

With a dirt tank of 106 liters, the machine cleans large / largest areas and achieves the best cleaning performance on any type of hard floor. Suitable for painted, tiled and all concrete floors. You will achieve perfect cleaning results in your workshops, warehouses, logistics and shopping centers, hospitals and many other places.

- Simple control panel & ergonomic design
- Brush & drive plate replacement are easy to handle
- Extremely quiet at 67 dB
- Non-slip & chemical resistant wheels (special accessories)

RA565 IBC

- Compact and very maneuverable for narrow working areas, fits into any passenger elevator.
- High productivity: 6 km/h, 65 l tank capacity and up to 4 h operating time - better than any walk-behind model.
- Simple operation, intuitive display integrated in the steering wheel.
- Brush ejection and pick-up at the touch of a button.
- Ideal for daily cleaning, low-noise suction motor with Eco function (55 dBA).
- Robust, chemical-resistant polypropylene tanks.
- Ergonomic access to the seat from both sides. Sitting position with comfortable pedal stop.

Steering wheel with integrated display

Lever for suction nozzle & brush and water regulation

Fresh water drain hose with level indicator and opening for fresh water filler hose

Large filling opening, e.g. for buckets

RA805

Our RA805 shows its power where we ask for maneuverability and speed. The RA805 drives through doors with a width of 80 cm, has a good turning circle and is 50% faster than a walk behind scrubber. Due to the four wheels, a drive in the back, the machine is comfortable low to get on. The construction of the machine is very stable and robust.

- 4 wheels for better weight distribution
- Small turning circle due to almost 90°-wheel angle
- Speed-dependent water dosing
- Cleaning up to max. 15% incline/decline
- Spot/Eco mode

Scrubby

The Scrubby machine cleans effectively. It offers you easy and comfortable cleaning in all kinds of difficult places like stairs, walls and narrow areas without the annoying presence of electric cables. With improved battery technology and quick charger.

FloorMac

This extremely handy, only 33 cm wide single-disc machine was developed especially for small areas, as well as stairs. Whether cleaning or polishing, whether parquet or stone floors, you will achieve the best results. In addition, a water tank facilitates the dosage during cleaning work.

Oscillating drive

The cleaning brush or the cleaning pad and its drive plate are mounted eccentrically and are moved at 1450 oscillations per minute. These movements lead to unique cleaning results.

detent pins
(special accessories)

With the weight of 66 kg for E44 Excenter / 69 kg for E50x35 Excenter (incl. additional weight) as well as 2720 1/min you have the perfect cleaning result for almost all floors (concrete - and natural stone, PVC, tile, safety floors as well as parquet). You can not only (deep) clean, sanding but also peel coatings. The square design makes them perfectly fit into any corner.

Our patented handle adjustment as well as the large transport wheels for easy transportation are great advantages. Also useful are the two detents (750.586 kit detent pins) on the body that allow you to either lift the wheels off the ground to leave no running marks or turn the handle completely upside down to get maximum weight on the ground. By adding additional weights in pieces, you can perfectly adapt the machine weight to your application. Simply set up the brush head and you can easily change the pads or store the machine.

KS650 IBC

Whether inside or out, the hand-guided vacuum sweeper KS650 IBC removes dirt and dust from all hard floors. It can also clean carpets with the carpet set. The machine is very maneuverable, easy to push thanks to its traction drive and highly efficient with a cleaning speed of 5 km/h. The overhead projection principle ensures that the dirt container is filled optimally. Because the KS650 IBC is battery-operated and fitted with an on-board charger it gives off no harmful emissions.

Technical data	KS650 IBC
